Town of Wheatland Permit Authorized Representative

The proposed application has been reviewed by a representative of the Town of Wheatland. As provided by Section 86.07(2), Wisconsin Statutes, a permit therefore is granted, subject to the following conditions and any attached hereto:

1. Proper barricades, signs, flags, lights, and flagmen shall be provided and maintained at all locations where construction and maintenance work interfaces with normal traffic use of the highway. All markings and signing provided for traffic control purposes shall conform to the standards and specifications of the current issue of the Wisconsin Manual of Traffic Control Devices, Part V.
2. The applicant, his successors or assigns, agrees to hold harmless the Town of Wheatland and its duly appointed agents and employees against any action for personal injury or property or property damage sustained by reason or exercise of this permit.
3. The proposed construction and the exercise of this permit shall conform to the requirements of the Wisconsin Statutes, and to any regulations imposed by any legally constituted body having jurisdiction.
4. The Town of Wheatland reserves the right to make such changes, additions, and relocations within statutory limits on the right-of-way as may, at any time, be considered necessary to permit the relocation, reconstruction, widening, and maintaining of the highway, or to provide proper protection to life and property on the highway.
5. The entire cost of constructing, maintaining, removing, altering or replacing the facility installed under this permit shall be the sole responsibility of the applicant, his successors or assigns.
6. The roadway shall be kept open for traffic and the indicated number of lanes shall be provided. There shall be no interference with traffic due to the placing of excavated material or machinery on the lanes kept open for traffic.
7. All damages to the highway shall be repaired, and the roadway surface, shoulders, slopes, ditches, etc. shall be restored to a condition acceptable to the Town of Wheatland representative at the sole cost and expense of the applicant.
8. Where the permitted work involves open trenching and/or tunneling, temporary sheeting and shoring shall be used as necessary to prevent soil caving.
